Proposed Modification of Letter-of-Credit System.

AUDIT OFFICE, OTTAWA, June 23, 1900.

SIR,—As you are aware, there are now in practice under the Consolidated Revenue and Audit Act, two modes of making payment of all expenses legally chargeable on a parliamentary appropriation, viz.: (1) by direct application to this office for a Receiver General's cheque to cover the amount due; (2) by the issue of a cheque under a departmental letter of credit.

The Statute does not prescribe or indicate the expenditure, as a class, to which these modes respectively apply, and it seems to me that it will be in the public interest to attempt some classification in this respect for the future guidance of the departments.

In making the selection of the classes of expenditure, which in my opinion should be made only by direct application to this office, I have been influenced largely by my experience in the past with expenditure of a similar nature. I have found that it is in connection with these classes of outlay that the great bulk of the correspondence between this office and the departments has taken place; and, inferentially, it is along these lines that irregular claims will likely be made in future.

I trust you will find I have kept in view the convenience of the public and the department by leaving to be paid under the credit all payments where mistakes are not likely to arise.

Commencing then with July next—the first month of the financial year 1900-1901—I would like your department to treat as proper claims for direct application to this office any that may come under the following heads:—

(1) All advances or repayments for travel or other disbursements asked for by the officers or employees of the department to be charged on any vote other than Civil Government Contingencies.

(2) All payments on account of or in final acquittance of large contracts.

(3) Extras on contracts.

(4) Gratuities or allowances of any kind not sanctioned by statute.

(5) All accounts not within the financial year to which the appropriation applies or within six months before the beginning of it.

(6) All salaries or other remuneration to employees in Ottawa, not paid through the Accountant of Contingencies.

(7) Special payments of any kind, whether authorized by the Governor in Council or not, or whether made under a special appropriation or not.

Of course I shall be glad to discuss this matter with you if you so desire, as I am anxious that any departure which may be made from the present order of things shall be one in the right direction and be such as will not unnecessarily incommode the working of the department or interfere with the prompt settlement of all just claims on the public treasury.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept. J. L. McDOUGALL, *A.G.*

DEPT. OF PUBLIC WORKS, OTTAWA, June 27, 1900.

DEAR SIR,—I have received your letter of June 23, making certain suggestions in reference to the payments made by this department, either by application to you for a Receiver General's cheque, or by the issue of my own cheque under the departmental letter of credit.

The proposal made by you is, I think, perfectly satisfactory in reference to Nos. 2, 3, 4, 5, 6 and 7 of your letter, but I doubt very much whether it would be possible to carry on the work of this department properly if, every time an expenditure for

travel has to be made, an application had necessarily to be made to you. In some cases, of course, the departure of our officers on departmental business is decided in advance, but in certainly 50 per cent and more of the cases the decision is arrived at on the spur of the moment, on account of the necessity that arises upon the receipt of a telegram, of a letter, or of a particular and urgent instruction from the Minister. In such cases, it would be absolutely impossible to await the return of an application made to your office.

The accountant of the department will, if you are agreeable, go to your office and discuss the matter with you, and, if necessary, after he has done so, I shall go myself to have an interview with you.

The preparation of the explanations for our supplementary estimates, and my attendance upon the Minister in the House when those estimates will be discussed, make it absolutely impossible for me to absent myself from the department at present, even during a few hours.

I am, sir, your obedient servant,

The Auditor General. A. GOBEIL, *D.M.P.W.*

AUDIT OFFICE, OTTAWA, July 3, 1900.

SIR,—Let me acknowledge receipt of your letter of June 27, concerning the change in the method of making certain classes of expenditure.

I note with pleasure that your objections are confined to only one class, namely, advances for travelling expenses, where you think the delay of routine might cause trouble.

It would, of course, be a radical fault in a new system, if its rigidity were such as to injure the public interests ; and if your department alone were concerned, I would modify this section without hesitation.

In view, however, of the large number of departments to be treated under so few general rules, it would be preferable to let actual experience develop the need for elasticity, as the requisite places for modification will thus be most accurately located.

This will not, I think, cause more than a temporary inconvenience. The more important travel is naturally performed by the more important officers, namely, those on the permanent list, and therefore by those who have to obtain their advances from the Accountant of Contingencies, no matter what the haste. For a temporary officer, if it is found impossible to apply for cash half a day ahead, an interim understanding can be had at any time, say over the telephone.

Please send in, at the end of each month, a statement of advances which are still outstanding, with dates when the advances were made, and reasons why the debtors have not yet accounted therefor.

I am ready to discuss this subject at any time with the accountant or yourself.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept. J. L. McDOUGALL, *A.G.*

Extra Clerks paid before Approval of Pay-list.

AUDIT OFFICE, OTTAWA, March 2, 1900.

SIR,—I have just received from your department an application to repay the Bank of Montreal for February expenditure under letter of credit.

I notice that the extra clerks and other temporary employees were paid for January on February 1, although the pay-list had not been approved and returned to your department, as required by the Treasury Minute of December 2, 1895 ; the delay

having been caused by the lack of the necessary order in council, which was not passed until February 22.

Please obtain from the Deputy Minister and accountant, at an early date, a statement of their reasons for disregarding the Treasury Minute.

The question is so important that I shall need the explanation before renewing the letter of credit.

I am, sir, your obedient servant,

The Minister of Public Works. J. L. McDOUGALL, *A.G.*

DEPARTMENT OF PUBLIC WORKS, OTTAWA, March 5, 1900.

My Dear Mr. McDOUGALL,—In reply to your letter of March 2, I beg to state that at the very last moment, the Deputy Minister informed me that he had forgotten to prepare a report to Council in time to pay the extra clerks on February 1. I then took upon myself to authorize him to issue the checks, telling him that I would see you and explain—which, I am sorry to say, I did not do.

Most of our extra clerks cannot wait for their pay and I thought there would be no great harm done in giving the order I gave, as I was sure everything would be put right.

In two words, my desire not to send the men unpaid was the cause of the irregularity which, I quite confess, should not have taken place.

Believe me, my dear Mr. McDougall, truly yours,

The Auditor General. J. ISRAEL TARTE.

AUDIT OFFICE, OTTAWA, March 8, 1900.

SIR,—Let me acknowledge receipt of your letter of March 5 concerning the payment of extra clerks before the authority of Council was obtained.

I am glad to be able to draw from it that you intend in future in like circumstances to delay payment until it can be regularly made, and to throw the responsibility of any difficulty on the person whose negligence causes it.

I am, sir, your obedient servant,

The Minister of Public Works. J. L. McDOUGALL, *A.G.*

Certificate wrongly understood by Certifiers.

AUDIT OFFICE, OTTAWA, January 30, 1900.

SIR,—Concerning the certificate of attendance for your extra clerks and other temporary employees, namely, 'I hereby certify that the undermentioned employees have been at this office every day for which payment is asked, &c.'

It is not sufficient that the signatures of the employees are on the attendance book. The officer certifying should have personal knowledge of the practically continuous attendance of those whom he certifies, and should be held responsible for his signature.

These remarks are called forth by the oral discussion with Mr. Hayter on Dr. St. Jean's case which took place at the end of last month, in which you advanced the theory that you were unable to go behind the record of the attendance book.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept. J. L. McDOUGALL, *A.G.*

Certificates to Mis-statements.

AUDIT OFFICE, OTTAWA, June 26, 1900.

SIR,—The pay-lists of extra clerks in your department have contained for several years the name of J. J. Warwick, up to August 31, 1896, at $68.44 a month ; and since that date at $41.66.

58-59 Vic., Cap. 15, Sec. 8, provides that extra clerks already employed on January 1, 1896, may be continued at a rate of pay not exceeding what they were getting at that date ; and it was under this authority that payments for Mr. Warwick were passed by this office.

The pay-list for May, 1900, however, which contains $18.81 for 14 days' work of Mr. Warwick, as typewriter, is supported by a certificate from Dr. F. X. Valade, dated May 30, as follows :—'I hereby certify that Mrs. J. J. Lemoine, *dit* Warwick, has been sick and under my care from May 10 to 16 ; same, suffering of headache, and that during that time she has been in the absolute impossibility of attending to her official duties.'

Inquiry at the department develops the fact that Mrs. Warwick has replaced her husband at his work since 1898, although no trace of the change has appeared in the pay-lists.

In other words, the pay-lists since 1898, certified by Messrs. Ewart, Kingston and Gobeil, have contained an untruth.

Please let me have explanations from each of these officers, describing his share of knowledge of the transaction.

It will be necessary to answer this letter immediately, so that the June and subsequent pay-lists may be so certified as to prevent a recurrence of such a case.

As there is no authority for the payment of Mrs. Warwick out of the vote for 'Chief Architect's Staff,' I have removed the item of $18.81 from the May pay-list.

I am, sir, your obedient servant,

The Deputy Minster, Public Works Dept. J. L. McDOUGALL, *A.G.*

DEPT. OF PUBLIC WORKS, OTTAWA, June 30, 1900.

SIR,—I have the honour to acknowledge the receipt of your letter dated the 26th instant, asking for explanations relative to the employment of Mrs. Warwick as extra clerk in this department in the place of her husband.

I am, sir, your obedient servant,

The Auditor General. JOS. R. ROY, *Act. Sec.*

Travel of Permanent Officers wrongly charged to Outside Votes.

AUDIT OFFICE, OTTAWA, June 11, 1900.

SIR,—It has frequently been pointed out by me, when issuing letters of credit to your department, that the outside votes should not be used for the payment of travelling expenses of Civil Government officials, but that these expenses should be charged to Civil Government contingencies, as they are in other departments, in accordance with the Contingencies Act, and as was affirmed by the Treasury Board in the case of Mr. Vankoughnet, shown at page A—8 of my report for 1889-90.

I notice that your expenditure for outside services in 1899-1900 still contains several charges for travel of Civil Government officers.

Please make a complete list of these payments, and transfer the total to Civil Government contingencies, even if the latter vote should then show an over-expenditure.

I am, sir, your obedient servant,

The Deputy Minister Public Works. J. L. McDOUGALL, *A.G.*

Removal Expenses of newly-appointed Officer.

AUDIT OFFICE OTTAWA, April 4, 1900.

SIR,—Let me call your attention to the order in council of March 30, 1900, concerning the appointment of Mr. D. J. O'Donohue, and his removal from Toronto to Ottawa.

In recommending the payment of Mr. O'Donohue's removal expenses, it may be that the department considered this action to be the usual course.

I do not remember having seen, in the twenty-two years of my service here, a case where a newly-appointed officer received his removal expenses to Ottawa.

If it is concluded to act on the order in council, please see that the payment is not made through the departmental letter of credit, but that application is made to this office for a Receiver General's cheque.

I am, sir, your obedient servant,

The Acting Minister of Public Works. J. L. McDOUGALL, *A.G.*

Application Forms Signed by Accountant in Blank.

AUDIT OFFICE, OTTAWA, August 24, 1900.

SIR,—Let me acknowledge receipt yesterday, from your department, of two applications for payment, as follows :—

45 : Smeeth & McGillicuddy, $5,280.

46 : J. B. McManus, $8,060.

These papers carry the countersignature of Mr. Kingston (who has been for some time in Nova Scotia), and are dated August 23. The inference is, that Mr. Kingston countersigned blank applications before his departure.

If this be true, there is only one valid signature—that of Mr. Gobeil—and I am unable to certify the payments. Papers returned herewith.

Please explain to all participants in this arrangement, that the rule which requires two signatures to a cheque or certificate cannot be evaded in this way ; it is the knowledge of the two officers which is required, and not merely ink from their pens.

I am, sir, your obedient servant,

The Minister of Public Works. J. L. McDOUGALL, *A.G.*

Books of Reference : Special Vote not used.

AUDIT OFFICE, OTTAWA, June 7, 1900.

SIR,—Let me acknowledge receipt, from the accountant of your department, of an application for a transfer of $185.10 from the debit of 'Civil Government Contingencies' to that of the special vote for 'Technical and other Books of Reference, $500.'

Any books of reference which can be properly paid for out of the new vote can also be purchased from 'Civil Government Contingencies,' as is done by all the other

departments. This is evident from the orders in council of December 22, 1888, and June 18, 1894 (shown at page *a*—8 of my report of 1898-9), as well as from the details of the departmental expenditures since they were first published. It is under 'Civil Government Contingencies' that information as to the outlay for this service is always sought. As the new vote is, therefore, a disturber of the uniformity which is so desirable in a large system, I would prefer that you do not bring it into operation, but continue to follow the practice of the other departments, unless any grave objection exists thereto. Also please omit the vote from future estimates.

Included in the list of books of reference, amounting to $185.10, are the following :—

La Milice Canadienne-Française, 6 vols.	$30 00
Lefroy's Legislative Power in Canada, 2 at $7.20	14 40
Hassard's Canadian Constitutional History and Law, 3 at $1.80	5 40
Hassard's International Law.....	2 00
Dilke's Greater Britain	2 00

Although it is within my responsibility to see that the charges against a vote are only those for which the vote was intended to provide, it would be impossible for me to verify every item separately, and section 42 of the Audit Act therefore makes the departments also responsible in the first instance. The books above-named appear, however, to be so plainly outside of any administrative needs of the Public Works Department, that I do not understand how they came to be made a public charge. If through inadvertence, a refund will eliminate them from the accounts. If you wish to maintain these items in the expenditure, let me have a full explanation of the way in which they are necessary for the proper working of the department.

The application is returned herewith.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept. J. L. McDOUGALL, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, June 9, 1900.

SIR,—I have the honour to acknowledge your letter of the 7th instant, referring to certain books purchased by the department and which you think are not in the class which may be included among the books of reference.

In reply, I beg to state that I would prefer that this matter be discussed by you with the Hon. Mr. Tarte, when he returns to the department, as books of the nature of those to which you refer are generally purchased upon the instructions of the Minister. I have no doubt that you will, as usual, come to a satisfactory explanation with the Minister.

I am, sir, your obedient servant,

The Auditor General. A. GOBEIL, *D.M.P.W.*

Electric Light Fittings for Ship-channel Plant.

AUDIT OFFICE, OTTAWA, July 19, 1900.

SIR,—Let me acknowledge receipt of your application No, 320, for $3,190.50, in favour of Ahearn & Soper, for engine and electric light fittings for the dredge 'Laval,' charged to 'St. Lawrence Ship Channel.'

Please give me a copy of the written arrangement with Messrs. Ahearn & Soper, if any.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept. J. L. McDOUGALL, *A.G.*

AUDIT OFFICE, OTTAWA, September 17, 1900.

SIR,—In further discussion of the claims of Ahearn & Soper for installing electric light plants on the ship channel dredges :

I have read the copies of the departmental letters of September 12, 1899, December 15, 1899, March 20 and 26, 1900, which Mr. Soper has furnished to me, after having them certified by the assistant secretary—each letter being a separate order for lighting another dredge or tug.

This subject is discussed at page 9986 of the 'Hansard' of 1899 (August 9), in the following dialogue :

The Minister of Finance—'It has been decided to provide each dredge with an electric light plant, so that dredging may be continued during the night. The appropriation ($78,000) is required to fit six dredges with electric light plant, and to provide maintenance, so that we may have a double service.'

Mr. Foster—'Will these electric light plants be bought by tender and contract ?'

The Minister of Finance—'Tenders have been called for already.'

Please describe the way in which tenders were asked and the offers which were received. Since the whole service was outlined before any of it was begun, it seems feasible to have included all the dredges in one contract ; and as this would have been over $5,000, the order in council of May 23, 1880, demands public advertisement.

I should like to have copies of the specifications.

I am, sir, your obedient servant,

The Minister of Public Works. J. L. McDOUGALL, *A.G.*

DEPARTMENT OF PUBLIC WORKS, September 26, 1900.

MY DEAR MR. McDOUGALL,—*Re* electric light plants on the ship-channel dredges, permit me to give you the dates at which the different contracts were given :

1.—September 12, 1899 ;
2.—December 15, 1899 ;
3.—March 20, 1900 ;
4.—March 26, 1900.

On December 25, 1899, I gave myself verbal instructions to Messrs. Ahearn & Soper for an additional boat.

All these contracts were given after tenders had been asked from responsible parties, such as the firm of Ahearn & Soper, The Canadian General Electric Company, The Royal Electric Company, of Montreal. My officers cannot lay their hand on the different tenders that were sent in. They have been mislaid somewhere. But I give you my personal statement, which will be corroborated, if necessary, by the statement of the Chief Engineer, that Messrs. Ahearn & Soper were the lowest and the most advantageous of all those I have mentioned.

The interest involved in the dredging and improvement of the St. Lawrence River is of such a magnitude that I made up my mind to have all the dredges available work day and night. When I came from Paris, last year, I found that in my absence nothing had been done to carry out dredging night and day, and that a season had been lost in discussing with the different tenderers. I looked carefully myself with my officers into the whole situation and came to the conclusion that the only thing to be done was to make different contracts with Messrs. Ahearn & Soper, whose tender, as I have stated, was the best. I am glad to say that I have inspected the dredges since I came back and have satisfied myself that they have done during the last season more work than was ever done by any dredges in the St. Lawrence in past days.

As to the answer of the Minister of Finance to Mr. Foster, on August 9, 1899, it was a correct one as, in fact, tenders had been called for. The contracts were not

given at the same time, because the work could not be carried out at the same time, owing to the engagement of the different dredges. In fact, I feel confident that I have not violated even the strictest interpretation of the letter of the law, as these contracts have been for different dredges and executed at different times.

However, I am sure to have acted in the interest of the country in hurrying up the improvements of the St. Lawrence route which, as you well know, is the great national highway.

The work of Messrs. Ahearn & Soper has been carefully examined and certified to by Messrs. James Howden, superintendent of dredging, and James Johnson, our electrical expert.

I will have much pleasure in giving you any additional information that you may require. Of course, if you think I have violated the law, I shall not do so again, as I have no desire to go against any established rules. Kindly drop me a note on the subject.

Believe me, my dear Mr. McDougall, sincerely yours,

The Auditor General. J. ISRAEL TARTE.

AUDIT OFFICE, OTTAWA, September 27, 1900.

DEAR MR. TARTE,—I am in receipt of your letter about the dredge lighting and have handed back the applications to Mr. Kingston, your accountant, so as to have them charged to the appropriations of this year, those of last year being closed. As soon as they are received they will be put through.

Respectfully yours,

The Minister of Public Works. J. L. McDOUGALL, *A.G.*

Halifax Building : Certificate too much modified.

AUDIT OFFICE, OTTAWA, May 19, 1900.

SIR,—Let me acknowledge receipt to-day from your department of application No. 248, for $24,000, in favour of F. D. Corbett, of Halifax, being purchase price of site for the new public building.

Mr. Ewart's certificate reads : ' The price now asked is $24,000, which, taking the location into consideration, and what has been paid for sites in other cities, is reasonable.'

It is, of course, useful to have an extended and modified certificate such as this, for items outside of routine ; but section 33 of the Audit Act provides that, in addition to any other certificate, there must also be that of 'prices fair and just.' In other words, the transaction must be called fair by itself, whatever has been done before or elsewhere.

I am, sir, your obedient servant,

The Deputy Minister of Public Works. J. L. McDOUGALL, *A.G.*

Salmon River : Purchase of Wharf.

AUDIT OFFICE, OTTAWA, June 29, 1900.

SIR,—Let me acknowledge receipt June 27, from your department, of application No. 291, for $2,000, in favour of William and James Burrill, being purchase price of wharf at Salmon River, Digby, N.S.

Mr. Dodwell reports on this wharf : ' As it is sound and in good condition, with the exception of a few top-logs and fenders, its value, as a basis of purchase, may, I presume, be taken to be its cost, less repairs. Approximate cost, 55,944 cubic feet, at 5 cents, $2,797.20 ; less cost of repairs, $250 ; difference, approximate value, $2,547.20.'

I shall need to know, as in previous similar instances, the date at which the wharf was constructed.

Mr. Dodwell's argument appears to have the weakness of not allowing for gradual deterioration in those parts which cannot be reached by superficial repairs. Please call his attention to this, and ask him to make an estimate for depreciation by age.

I am, sir, your obedient servant,

The Deputy Minister of Public Works. J. L. McDOUGALL, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, July 5, 1900.

Memorandum *re* purchase of wharf at Salmon River, Digby county, N.S., from the Burrill Estate.

The Auditor General states that no payment can be made on account of the purchase of this wharf until he is informed of the date of its construction, and also of its depreciation on account of age.

I have referred the matter to Mr. Resident Engineer C. E. W. Dodwell, who informs me that the approximate value of the portion of the wharf owned by the Burrill estate, after deducting $250 for repairs, was $2,547. Therefore, the sum of $2,000, which it is proposed to pay for the structure, should be considered fair and reasonable, as its first cost is placed at $2,797.

As regards the date of construction of the wharf, Mr. Dodwell has no information on record. But certainly the fact that only $250 worth of repairs are required, would lead one to believe that, notwithstanding its age, the structure is still in a very fair condition.

The purchase price of $2,000 includes the price of the site on which the wharf is built.

EUGENE D. LAFLEUR,

The Deputy Minister of Public Works. *Acting Chief Engineer.*

McGregor's Creek : Taylor & Williamson.

PUBLIC WORKS DEPT., OTTAWA, March 17, 1900

DEAR MR. MCDOUGALL,—As Acting Minisiter of Public Works, I am asked to have an item included in the Supplementary Estimates to pay the sum of $250 to Messrs. Taylor and Williamson, of Chatham, in settlement of their claim for damages to their property occasioned, as they contend, by certain Government dredging. Mr. Gobeil informs me that Engineer Coste reported against the claim ; that Sir Frank Smith, when acting as Minister of Public Works, authorized an offer of $250 as a compromise ; that this offer was accepted and that an order in council was passed authorizing payment ; that subsequently an item was voted by Parliament for payment, but that you objected to such payment, unless the engineer gave a certain form of certificate which, in consequence of the facts, he was unable to give and accordingly the item lapsed.

The department is now being pressed to redeem its pledge, and it appears to me proper that it should do so, and therefore I desire to have in the Supplementary Estimates an item to cover this, and so worded as will enable this amount being paid.

I would, therefore, be glad if you would let me know what form of wording would meet your views upon the subject.

Yours faithfully,

W. MULOCK,

The Auditor General. *Acting Minister of Public Works.*

AUDIT OFFICE, OTTAWA, March 20, 1900.

SIR,—Let me acknowledge receipt of your favour of March 20, concerning the claim of Messrs. Taylor and Williamson, for damages to building caused by dredging in 1876.

Inclosed please find copies of previous correspondence on this subject, showing the weaknesses in the claim as so far presented.

If you still think that it should be recognized, I will devise a wording for a special item in the estimates which will relieve me from all responsibility in making payment under it.

The sum does not appear to have been previously voted.

I am, sir, your obedient servant,

The Acting Minister of Public Works. J. L. McDOUGALL, *A.G.*

NOTE: Previous correspondence will be found at page C—307 of 1890-91.—J. L. McD.

PUBLIC WORKS DEPT., March 21, 1900.

MY DEAR MR. McDOUGALL,—*Re* claim of Taylor and Williamson : I understand that the Hon. Senator Frank Smith, when Acting Minister of Public Works agreed, on September 21, 1891, to pay the sum of $250 as a compromise in settlement of Messrs. Taylor and Williamson's claim and that later, an order in council bearing date July 22, 1893, approved of that settlement. Under the circumstances, I do not desire to go behind Sir Frank Smith's action, but rather to carry it out and, therefore, would be glad to have such words in connection with an item to be included in the estimates as will preclude any difficulty being made to payment, should Parliament vote the money.

Yours truly,

W. MULOCK,

The Auditor General. *Acting Minister of Public Works.*

AUDIT OFFICE, OTTAWA, April 6, 1900.

SIR,—*Re* McGregor's Creek, and the claim of Taylor & Williamson for damages by dredging in 1876 :

The administration of the Public Works Department by Sir Frank Smith always appeared to me so careful, that I would be much surprised if he offered $250 without full proof of liability—no matter what Messrs. Taylor & Williamson now understand his offer to have been.

This full proof of liability they have always been unable to furnish, although repeatedly asked.

If voted, the wording might be something like this : 'To pay Taylor & Williamson the sum which they claim was offered them by Hon. Frank Smith in 1891, for

damages in 1898, notwithstanding the present lack of any satisfactory proof of liability.'

I am, sir, your obedient servant,

The Acting Minister of Public Works. J. L. McDOUGALL, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, April 7, 1900.

SIR,—I have been instructed by the Hon. Mr. Mulock, Acting Minister of Public Works, to acknowledge the receipt of your letter of the 6th instant with reference to the claim of Messrs. Taylor & Williamson, for damages by dredging, and to state that with reference to this claim, Sir Frank Smith, Acting Minister of Public Works, authorized the claim by the following memorandum :—

'September 21, 1891.—Pay $250.—F.S.'

I am, sir, your obedient servant,

The Auditor General. FRED GELINAS, *Priv. Sec.*

Port Dover : U. S. & Ont. Navigation Co.

AUDIT OFFICE, OTTAWA, December 2, 1899.

SIR,—Let me acknowledge receipt from your department of Application No. 142, for $25,000, in favour of the United States and Ontario Steam Navigation Co., the amount of the special vote to pay them for 'dredging carried out by them for further improvement of Port Dover harbour, as per agreement.'

Please send me a copy of the written agreement, if any. Col. Tisdale, however, thinks the agreement was only oral ; in this case, it should be reduced to writing.

There should be either a statement by the company of the whole cost of the work, approved by the Government engineer ; an approximate calculation of the cost, made by the engineer himself ; or a certificate from him that the cost has been at least $25,000. The first of the three is the preferable one, and any trouble in getting it is justified by the magnitude of the payment.

I am, sir, your obedient servant,

The Minister of Public Works. J. L. McDOUGALL, *A.G.*

TORONTO, December 5, 1899.

SIR,—I beg to acknowledge receipt of your letter of the 4th instant inclosing me a copy of a communication from the Auditor General in reference to the proposed payment of $25,000 to the United States and Ontario Navigation Company, and asking me to see if I am able to reduce to writing the oral agreement referred to by the Auditor General, also to send a certificate that from the examination made by me the cost of the work, on account of which we are making the payment, has been at least $25,000.

In reply I would say that it is not possible for me to reduce to writing the oral agreement, as it is contained in a number of statements, letters, statistics and information communicated between the Government and the company in reference to the whole matter of the establishment of the ferry service and the improvement of the harbour at Port Dover.

However, I am able to say that the work, for which the payment is to be made, having been performed under my supervision, cost a much greater sum than $25,000, as per my formal certificate herewith.

The water in the harbour had fallen to such an extent that the company's boats were unable to use it and the understanding or agreement between the company and the Government was that the company should sufficiently rock-dredge an area over which the earth had been previously dredged so that the boats of the company could use the harbour ; also to build a breakwater of sufficient length to protect the dredged area from the drifting sand, all of which was done to my satisfaction and in accordance with the agreement.

Inclosed please find my certificate in accordance with the Auditor General's request.

Yours obediently,

HENRY A. GRAY,

The Acting Chief Engineer, Ottawa. *Engineer in Charge.*

Sturgeon Point Wharf : Objections to Payment.

AUDIT OFFICE, OTTAWA, October 27, 1900.

SIR,—Let me acknowledge receipt of your application, No. 120, for $300 in favour of the municipality of the village of Sturgeon Point, in repayment of outlay for repairs to the eastern wharf at that point.

I see these important objections to the payment :

1. The work was undertaken without the authority of the department.

2. The appropriation was made by Parliament without having been informed that it was to cover work already done, and therefore on the assumption that the work had not been done or even ordered.

Manifestly the control of Parliament would be much relaxed if it were recognized as regular to permit every one of his own motion to do work on public property without direction from any department and without the oversight of any representative of the Government and to present his bill afterwards as a matter of course.

Then it would be equally subversive of legitimate control to treat as regular the entering into expenditure by the Government before the endorsation of the outlay by Parliament.

There are remarks on the insufficiency of the vouchers as evidences of actual and economical expenditure, which are postponed.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept. J. L. McDOUGALL, *A.G.*

Engineer Certified without Personal Knowledge.

AUDIT OFFICE, OTTAWA, April 5, 1900.

SIR,—Let me call your attention to the certificates made by Acting Resident-Engineer Worsfold, in British Columbia.

The certificate-stamp reads : 'Certified, materials delivered, work performed prices fair and just ;' and this is always signed by Mr. Worsfold, even when, from the nature of the case, it is plainly impossible that he should have personal knowledge.

For instance : Voucher 958-601 is for $178.68, paid to Carlin & Durick, of Fort Steele, East Kootenay, for supplies delivered near that place, including 2,012 pounds of galvanized wire at 7¾ cents. The receipt of the materials is certified by Foreman McKechnie and Timekeeper Peck, both of whom would see the wire. The resident-engineer would probably know nothing more about the transaction than that the

price was fair and just ; and he should have erased the rest of the stamped-certificate before signing it.

Please have instructions in this sense issued to Mr. Worsfold, and also to any other officers who may be making the same mistake.

I am, sir, your obedient servant,

The Acting Minister of Public Works. J. L. McDOUGALL, *A.G.*

P. Hebert: Statue of Queen Victoria.

AUDIT OFFICE, OTTAWA, June 29, 1900.

SIR,—Let me acknowledge receipt yesterday from your department, of application No. 294, for $3,500, in favour of Philippe Hebert, making $9,500 up to date on account of his contract for $12,500 for a bronze statue of Queen Victoria.

Mr. Ewart says : 'Hon. Mr. Tarte reports that the statue, figures, &c., have been completed, and are now on exhibition in the Canadian Section of the Paris Exhibition. . . . As the contract calls for the statue, &c., completed and set up in Ottawa, I consider that Mr. Hebert should insure the statue, &c., and keep such insured for the sum of $9,500, until it is delivered here in Ottawa.'

Please let me know what steps have been taken to carry out this very practical suggestion. The expense should be borne by Mr. Hebert.

I should like to know whether the statue is retained in Paris at Mr. Hebert's request. If so, it would be better to withhold payment until delivery is made in Canada.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept. J. L. McDOUGALL, *A.G.*

DEPT. OF PUBLIC WORKS, OTTAWA, June 29, 1900.

SIR,—In reply to your letter of the 29th instant, I beg to inform you that the statue of the Queen will be insured by Mr. Hebert, at his own expense. This condition has been made known to him and he has agreed to the same.

In reference to your second question, I may say that it was at the request of the Hon. Mr. Tarte, now Chief Commissioner for Canada at the Paris Exhibition, that the statue of the Queen, as well as that of the Hon. Mr. Mackenzie, has been retained in Paris to be exhibited as a specimen of the work of a Canadian artist.

I am, sir, your obedient servant,

The Auditor General. A. GOBEIL, *D. M. of P. W.*

Ls. Coste : $10 a Day Allowance, instead of Actual Expenses.

AUDIT OFFICE, OTTAWA, Dec. 14, 1900.

SIR,—I have had in hand for some time an application, No. 148, from your department, for $430.66, in favour of Mr. Louis Coste, late Chief Engineer, being an amount retained from his salary to offset a balance against him in his cash account.

The reason given for now asking for the $430.66 is, that the order in council of October 24, 1900, is authority for a payment of living allowance, &c., at $10 a day, for 180 days—such allowance being illegal before, though entered by Mr. Coste in his account.

You will find a very full statement of Mr. Coste's Yukon trips at pages Q—246 to Q—249 of my report for 1898-9.

It there appears that the whole time of 180 days can be divided into the following periods :—

	Days.
First trip :	
March 11 to 16, 1898 : In Ottawa	6
March 17 to April 22: To Stikine and back	37
Second trip :	
May 7 to 30 : To Glenora and back to Wrangel	24
May 31 to July 26 : Coast to Dawson	57
July 27 to August 18 : In Dawson	23
August 19 to September 20 : Dawson to Ottawa	33
	180

Mr. Coste gives as a reason for not itemizing his accounts of actual outlay, the fact that he lost his note books while en route from the Pacific coast to Dawson in July, 1898.

Now, this explanation is applicable only to the period between May 31 and the date in July when he lost his note books.

His expenditure between March 17 and April 22 (a complete trip), if not otherwise preserved, can be easily reconstructed from the information published at page Q—246 of 1898-9, supplemented by answers which Mr. Coste has given to me in interviews at this office. The outlay for meals on trains is known to a cent ; the hotels in Victoria can be liberally averaged at $4 a day ; and he had no outlay while on the Government steamer *Quadra*, between March 30 and April 13. The probable expenditure for living on this trip (exclusive of gratuities, of which Mr. Coste might give an estimate) was $62.25 for the 43 days, as by accompanying statement.

Similar statements are attached for the 24 days between May 7 and 30, and for the 33 days between August 19 and September 20, amounting to $38.25 and $29.75 respectively. This latter sum might be increased if Mr. Coste makes an estimate of the Government's share of extra provisions which he bought at Dawson and St. Michael's ($75 and $40) to supplement the board to be provided by the steamer as part of the ticket-fare. It may be that part of these sums are for such luxuries as are not usually paid.

Recapitulating these totals, we have :

	Days.	Outlay.
March 11-16, 1898	6	.....
March 17-April 22	37	62 25
May 7-30	24	38 25
May 31-August 18 (see below).		
August 19-September 20	33	29 75
Total approximately known	100	130 25
Whole claim	180	1,806 00
May 31-August 18 (balance)	80	1,669 75

Or an average of $20.87 a day for this period, which is the real effect of the order in council.

Mr. Coste admits having information in his possession concerning the details of his expenditure after losing his note-book in July ; he promised to let us have what he could, and he has not done so. Further action in the matter is waiting on him. I think you will agree with me that nothing more should be done until this information is produced.

Mr. Coste's affidavit of March 30, 1899, reads as follows: 'As chief of the said party, I was entrusted with the payment of the expenses of the said party, and made advances to my assistants, and expended for personal and other requirements various sums of money which were duly entered by me in a note-book kept for that purpose. Unfortunately, I lost the note-book in question, and though I made diligent search to recover the same, I have not been able to find it, and it has not been returned to me.'

In passing the order of October 24, 1900, it may have been understood by Council that the note-book was lost at the completion of the whole trip, and that, therefore, none of the details were available. But, as shown above, it was perfectly feasible for Mr. Coste to record and transmit to us all of his outlay since the loss of his note-book, which took place early in July, or some time before he reached Dawson, and over two months before he arrived at Ottawa.

I am, sir, your obedient servant,

The Minister of Public Works. J. L. McDOUGALL, *A.G.*

Yukon Improvements: Irregular Charges.

AUDIT OFFICE, OTTAWA, April 6, 1900.

SIR,—Let me call your attention to some items of 'Yukon Improvements' expenditure, shown on pages Q—267 and Q—268 of my report for 1898-9.

Three payments for wine, on page Q—267, amounting to $8.60, should be refunded.

The items in Mr. Jos. Gobeil's account on page Q—268, of $21 and $24, for moving and storing house furniture, are not proper charges on public funds.

Mr. Gobeil should give vouchers for $25, $20 and $7 for clothing.

I am, sir, your obedient servant,

The Acting Minister of Public Works. J. L. McDOUGALL, *A.G.*

Instructions to Messrs. Charleson and Hardy.

AUDIT OFFICE, OTTAWA, January 11, 1900.

SIR,—I have received from your department an application for a letter of credit for $20,000 in favour of Messrs. Charleson and Hardy, to make expenditure on telegraph construction to Atlin.

Please let me know the positions which these gentlemen occupy with reference to the work, and send me a certified copy, in each case, of the documents under which the appointments were made, a statement of the salaries which they are to receive, and of the power which Mr. Charleson has in determining the salaries of employees and the prices of materials. Also, I should like to have a copy of their instructions regarding accounts, and a statement of the time which the $20,000 is expected to last them.

I am, sir, your obedient servant,

The Minister of Public Works. J. L. McDOUGALL, *A.G.*

DEPT. OF PUBLIC WORKS, January 16, 1900.

MY DEAR MR. McDOUGALL,—In answer to your communication of January 11, regarding an application from my department for a letter of credit of $20,000 in favour of Messrs. Charleson and Hardy, I may say that Mr. Charleson is going out to the Yukon in the same capacity as last year. He will be superintendent of the construc-

tion of the telegraph line from Atlin to Quesnelle, and he will also superintend the other works that my department will carry out, roads and bridges, public buildings, &c., &c.,— his special work being the construction of the telegraph line.

Mr. Hardy will act as an accountant. He is a man of experience and his record in the Department of Public Works is good.

Mr. Charleson is receiving a salary of $4,000 a year. Mr. Hardy will receive a salary of $2,000.

Those two officers have been instructed not to enter into any speculations, or take any claims or any interests in mining operations in the Yukon.

You will find inclosed a copy of the instructions given to them. I think that they are complete.

Now, I may say that I have given *carte blanche* to Mr. Charleson for determining the salaries of his employees and the prices of materials. It is out of the question to try to do anything else in such a country as the Yukon where conditions change from day to day.

It is also impossible to state the time which the $20,000 is expected to last. I know Mr. Charleson well ; I have implicit confidence in his honesty of purpose and in his ability to carry out the important work which is intrusted to him.

I think everybody will agree with me when I say that the way Mr. Charleson and those under him have constructed the line between Bennett and Dawson, deserves the highest praise.

Please grant the letter of credit with as little delay as possible, as Mr. Charleson intends leaving in a day or two.

Truly yours,

The Auditor General. J. ISRAEL TARTE.

DEPT. OF PUBLIC WORKS, January 3, 1900.

SIR,—As you will see by the annexed memorandum, which I have made to the Honourable the Minister and which he has approved, it has been decided to connect the Bennett and Dawson telegraph line with the eastern system of telegraph by constructing a further length of Government line from Quesnelle, in British Columbia, to Atlin, an estimated distance of 900 miles.

The memorandum in question sets forth the route which the line is to follow, and if it is the desire of the Honourable the Minister to place the construction of this further work under your charge, with instructions that you should proceed with the said work immediately.

Together with this memorandum, you will kindly take the general instructions conveyed to you by my letter of March 10 last to govern you in this case, with the exception of the orders for reports, which it is advisable to vary, as follows:—As you will have the direction of this work, you will have attached to your staff one of the regular acountants of this department, used to the preparation and examination of reports as will suit the Auditor General, and who will, under your instructions, send a financial statement of your operations on the second day of each month.

For the purpose of the execution of the work, a credit will be placed in the branch of the Bank of Commerce at Atlin, against which you will draw cheques, which will require to be countersigned by the accountant who will accompany you.

On the first of each month you will wire the amount of money that you shall have drawn during the preceding month, and on the second you will send a list, prepared by your accountant, of the said cheques, said list giving the names of those on whose behalf said cheques were drawn, the amount of the cheques and the nature of the work for the payment of which such cheques shall have been drawn. Accompanying said cheques shall also be the vouchers representing the payments made.

The department shall also expect from you a monthly report of your operations.

With the above variations, you will kindly govern yourself in accordance with the general instructions contained in my letter of March 10 last, in so far as they will refer to the present work, as well as with those contained in my memorandum referring to the work now to be performed.

As related in the latter meorandum, it is expected, 1st : that the continuation of the line from Atlin to Telegraph Creek, or Glenora, shall be completed on May 1. 2nd: that the whole of the line between Quesnelle and Atlin shall be in operation on or before November next. 3rd : that the total expenditure for the construction of the line shall not exceed the sum of $225,000.

I am, sir, yours very truly,

J. B. Charleson, Esq., Ottawa. , (Signed) A. GOBEIL, *D.M.P.W.*

Yukon Improvements : Vouchers not received at Audit Office.

AUDIT OFFICE, OTTAWA, Dec. 13, 1900.

SIR,—Let me call your attention to the large amounts of cash received by Mr. J. B. Charleson in 1898-1900, for which we have not yet received accounts, namely :—

Public buildings, Yukon District	$ 4,300 00
Bennett-Dawson telegraph line	43,615 39
Quesnel-Atlin telegraph line	1,000 00
Lewis and Yukon rivers	47,710 86
	$96,626 25

In an interview which I had about two weeks ago with yourself and the accountant, Mr. Kingston said that some of these vouchers had reached him, though in an incomplete state ; but that he had not then time to examine them (as required by the Audit Act) before transmitting them to this office.

I also understood that you were to ask Mr. Charleson (who had returned to Ottawa) to call at the Audit Office and give whatever information he could ; and that you were to telegraph to Vancouver to bring Mr. Hardy, who had acted as Mr. Charleson's accountant. I have seen neither of these gentlemen ; please let me know when I may expect them.

As was done under similar circumstances last year, I have sent the manuscript of my report to the Queen's Printer, having entered opposite the above-mentioned advances a reference to 'J. B. Charleson's Expenditure-Account at the end of Public Works Expenditure,' on the chance that the necessary materials will arrive in time to prepare such an account.

I hope that this will be the case, as otherwise I shall be obliged to make the requisite explanations in my report to free me from any share of responsibility for the delay.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept. J. L. McDOUGALL, *A.G.*

NOTE.—Vouchers covering a large portion of the expenditure between March and October, 1899, were supplied to this office on December 21, 1900.—J. L. McD.

Vouchers needed from Engineer J. C. Taché.

AUDIT OFFICE, OTTAWA, Dec. 29, 1900.

SIR,—Let me acknowledge receipt from your department of an application for a letter of credit for $10,000 in favour of Mr. J. C. Taché, to pay accounts in the Yukon District.

There are considerable sums of money to be accounted for by Mr. Taché, which he has had more than sufficient time to explain. I cannot take the responsibility of causing the issue of this letter of credit until an explanation is furnished.

I am, sir, your obedient servant,

The Minister of Public Works. J. L. McDOUGALL, *A.G.*

Yukon Public Works : Expenditure by Interior Dept.

DEPT. OF PUBLIC WORKS, May 26, 1900.

SIR,—The Department of the Interior has requested this department to assume certain expenditures made by the Commissioner of the Yukon Territory in connection with the public buildings in that Territory. Vouchers for these items, it is stated, have been in the Audit Office since February last and the duplicates are now supplied to this department. It is to be remarked that a number of these vouchers are not certified in the form usually required by the Audit Office. Let me give a few examples:

No. 10.—McLennan, McFeeley & Co., $49.

No. 24.—J. S. Choquette, $205, as well as several others are marked : 'Certified correct.'—J. T. LITHGOW ; approved, WM OGILVIE.

No. 427.—Thos. Adair, $45.50, is certified 'O.K.'—J. E. GIROUARD.

No. 430.—W. J. Brown, $54.50, is certified 'O.K.'—P. C. H. PRIMROSE.

No. 318.—J. U. Gallant, $100 ; No. 336.—Thos. Adair, $472.25, and several others bear the receipt of the payee, but no certification whatever.

Before making application for transfer entry, I shall be obliged if you will inform me whether or not you have accepted these accounts, so that this department may avoid assuming responsibility for them should they be still subject to amendment.

I am, sir, your obedient servant,

The Auditor General. A. G. KINGSTON, *Acct.*

DEPT. OF PUBLIC WORKS, June 28, 1900.

SIR,—Referring to my letter of May 26 last with regard to transfers requested by the Department of the Interior for expenditures in connection with public works in the Yukon Territory,—this department is to-day in receipt of another letter from the Deputy Minister of the Interior strongly urging for an immediate settlement of these accounts and others of a similar nature.

This office is only awaiting your reply to my former letter. If favourable, the applications for transfer shall be issued without further delay. May I request an early answer in order that we may be placed in a position to satisfy the Department of Interior ?

I am, sir, your obedient servant,

The Auditor General. A. G. KINGSTON, *Acct.*

AUDIT OFFICE, OTTAWA, July 3, 1900.

SIR,—In reply to your letters of May 26 and June 28, concerning expenditure to be transferred to the Public Works votes for the Yukon District.

Please send me a list of the items you propose to transfer. Those vouchers which have been paid from Interior Department votes will be transferred to Public Works without further difficulty as to certificate.

I am compelled, however, to treat the Yukon government as an outsider, and any expenditure made from its local revenues will be still subject to the usual audit before payment.

I am, sir, your obedient servant,

The Accountant, Public Works Dept. J. L. McDOUGALL, *A.G.*

DEPT. OF PUBLIC WORKS, OTTAWA, July 4, 1900.

SIR,—In reply to your letter of 3rd instant, regarding transfer of expenditures in connection with the Yukon District, I am now inclosing a copy of the statement transmitted by the Department of the Interior, amounting to $6492.38. As you will see, no distinction is made therein between payments made out of appropriations of that department and Yukon revenue.

Upon receipt of a statement indicating the items which you are prepared to pass without question, the application for transfer will be forwarded. In the meantime, please note that no such application has been made, as this department desires to avoid doing so until assured that the vouchers presented will be accepted by the Audit Office.

I am, sir, your obedient servant,

The Auditor General. A. G. KINGSTON, *Acct.*

DEPT. OF PUBLIC WORKS, OTTAWA, July 11, 1900.

SIR,—I am in receipt of a letter from Mr. Hayter of your office, dated to-day, returning the statement submitted to you by my letter of 4th instant.

Upon the foot of the statement has been placed a note signed 'J. W. Reid' and stating that these accounts were all paid from Dominion funds.

This would be a satisfactory reply to my letter of 4th instant, were it not that Mr. Hayter has appended thereto the following note :

'These vouchers will be transferred to Public Works votes without questioning the Public Works Department as to the certificates.'

Mr. Hayter also says in his letter that any criticism on the certificates will be directed to the Interior Department and not to the Public Works.

I have again laid the matter before the Deputy Minister of this department, and am directed to say that the department cannot submit to be set aside in this manner.

The unequal weight with which the criticisms and regulations of the Audit Office are laid upon different departments has long been apparent, and attention has frequently been drawn to it. The statement submitted is one of a number of such received from the Department of Interior accompanied by requests for transfers, and involving a total of about $120,000.

These vouchers forwarded in support of these expenditures are such as, under the regulations heretofore applied to Public Works accounts, would be judged entirely inadequate.

Duplicates of these are in the Audit Office ; some of them have been there for many months, and must long since have passed under any such criticism as would in the usual course of audit be applied to the accounts of that department.

Your letter of July 3 was understood to intimate that such of them as were charged to appropriations (the reason for distinction is hard to understand) had been finally accepted. Mr. Hayter, however, in to-day's letter (written, it is stated, by authority) makes an effort to withdraw that assurance. This department does not doubt that there may be good reasons for the incompleteness of these vouchers, but if so, it believes itself entitled to be apprised of them.

The department desires : *first*, to be made aware of the nature of the settlement which shall be made with the Department of the Interior in this question of vouchers; and *second*, to be assured that in the future Public Works accounts shall receive equally liberal treatment.

I am instructed to say that until satisfactory answers to these questions have been received, the department cannot recede from its present position, nor consent to the transfer of these several amounts.

I am, sir, your obedient servant,

The Auditor General. A. G. KINGSTON, *Acct.*

AUDIT OFFICE, OTTAWA, July 13, 1900.

SIR,—Let me acknowledge receipt of your letter of yesterday, concerning the Yukon transfers.

The payments by the Yukon government from 'Local Revenues' are made from money which does not belong to us, such as liquor license fees, &c. I am, therefore, obliged to treat such expenditure as if it were made by, say, the province of Ontario, and cannot accept their system of certificates where it differs from our own.

If the Interior Department's vouchers are deficient in any way, that department will be informed as soon as the fact is brought to my notice. There is, of course, no reason why your department should not refuse the Interior vouchers, unless they are completed to your satisfaction.

It would be better, I think, not to delay any entries which are necessary to close the fiscal year's transactions, on account of a discussion of general interest which may be pursued at any time.

Since this office has never been so overmanned that we have been able to get ahead of our work, it is probable that the Interior vouchers, of whose certificates you complain, have not yet undergone the scrutiny of the examiner, who handles several other departments also.

No vouchers are released before the appropriation accounts are closed.

I do not like to have the officers of any department think that I treat it with undue severity ; but I do not know of any instances in which the unreasonableness of our audit has prevented legitimate expenditure.

I am, sir, your obedient servant,

The Accountant, Public Works Dept. J. L. McDOUGALL, *A.G.*

DEPT. OF PUBLIC WORKS, OTTAWA, July 14, 1900.

SIR,—Permit me to acknowledge your letter of 13th instant. My letter of the 11th contained two particular questions marked *First* and *Second*. I regret to find in the reply only generalizations and probabilities, which I may be pardoned for not discussing at length. My instructions are that until definite answers to those questions are obtained no transfers are to be made.

I am, sir, your obedient servant,

The Auditor General. A. G. KINGSTON, *Acct.*

AUDIT OFFICE, OTTAWA, July 16, 1900.

SIR,—Let me acknowledge your letter of July 14, in further discussion of the Yukon transfer, and an alleged inequality of audit.

A department can legitimately complain if our audit of its expenditure is too exacting: I do not understand you to make this complaint.

But as to my dealings with a second department, that is not within the range of the first department's concern.

If the two appear to be unequally treated—(although I try for symmetry and thoroughness)—from one examiner being temporarily overcrowded with work, or from his incomplete experience, I alone am responsible.

I am not trying to press the transfer—that is for the Interior Department to do, who created the situation by making expenditure outside of the purposes of their letter of credit. Their attention has been called to the irregularity by a letter of this date.

As the discussion has now involved the policy of the Public Works Department, perhaps it would be better to have further correspondence pass through the Secretary's Office, as in a previous similar instance.

I am, sir, your obedient servant,

The Accountant, Public Works Dept. J. L. McDOUGALL, *A.G.*

DEPT. OF PUBLIC WORKS, OTTAWA, July 24, 1900.

SIR,—Referring to the transfers requested by the Department of the Interior for expenditures in the Yukon, your letter of 3rd instant divides these accounts into two classes, and adds with regard to those expenditures made by the Yukon government from its local revenues, that you are compelled to treat that government as an outsider, and to hold its accounts as subject to audit before payment.

I beg to transmit herewith for such audit a statement showing $96,996.32 to have been so expended by that government upon roads up to November 16 last.

A refund of this sum is asked from this department. I also inclose such vouchers in support thereof as have come to hand through the Department of the Interior.

After audit, if you will be so good as to return them and advise this department what sum you are prepared to pass for refund, application will immediately be made for the transfer of that sum.

This is done at the urgent request of the Department of the Interior, who are anxious that no time should be lost in the settlement of the matter.

Although desirous of doing its best to meet this urgency, this department cannot be expected to assume responsibility for the accounts of an outsider with whom it has had no previous connection.

Had the disbursement been made by its own officer, the application for payment would, as usual, be sent in company with the vouchers.

I am, sir, your obedient servant,

The Auditor General. A. G. KINGSTON, *Acct.*

AUDIT OFFICE, OTTAWA, July 25, 1900.

SIR,—Returning herewith the vouchers for Yukon roads and bridges, I beg to call your attention to the section of the Audit Act which prescribes that the departments are responsible for audit in the first instance.

I am not able to handle any accounts until they have been certified by the proper department as accepted by them.

I am, sir. your obedient servant,

The Accountant, Public Works Dept. J. L. McDOUGALL, *A.G.*

AUDIT OFFICE, OTTAWA, August 28, 1900.

SIR,—Inclosed please find a letter addressed to me, July 31, by the Accountant of the Public Works Department.

The matters therein discussed being outside of routine, I cannot (as stated in my letter of July 16 to Mr. Kingston), discuss them officially unless you assume responsibility for the letter by signing it.

As similar action was taken by me January 26, 1894 (see page P—226 of the Report for 1893-4), it will, of course, be understood that no discourtesy is intended to the Accountant.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept. J. L. McDOUGALL, *A.G.*

Yukon Roads : Expenditure by Interior Dept.

AUDIT OFFICE, OTTAWA, August 3, 1900.

SIR,—I have received from the Public Works Department two applications for $70,000 and for $26,996.32, in favour of the Yukon local government to repay their outlay for roads and trails.

The application for $70,000 has been passed, but that for $26,996.32 is held, pending receipt of further information.

The most of the expenditure appears to have been made under contract. However, on the list of tenderers, I find bids which seem to be lower than those accepted. For instance : The Bonanza Creek road was awarded to D. A. Matheson, at $1,650 a mile. Lower bids were : J. A. Campbell, $1,550 ; D. L. McKenzie, $1,600 ; A. A. McRae, $1,500.

The Hunker Creek Branch was awarded to Jas. Hartney at $1,240 mile. Lower bids were, S. C. Bredsgard, $980 ; A. J. Reinharts, $1,185.

The road from Bear Creek Divide to Forks (5 miles 1,800 feet), was awarded to Patterson & Cleveland for $2,350 a mile. It does not appear certain whether the tender of H. H. Smith 'from Bear Creek Divide, thence 5 miles at $2,000' is for the same service.

If lower bids have been rejected, there should be full explanation and evidence in support of such action. And where the lowest bid is not accepted, the certificate should be 'prices fair and just.' The certificate 'price according to contract' has always been interpreted as applicable only to contracts awarded to the lowest tender after public advertisement.

Although it may be gathered from the wording of Mr. Kains' reports that the work has been performed in each instance, it is better to have the certificates made as prescribed in the wording of section 33 of the Audit Act, namely, 'work performed' or 'materials supplied' for the service, and 'prices according to contract' or 'prices fair and just' for the rates.

The vouchers are returned herewith, for completion at as early a date as possible.

It is perhaps unnecessary to remark that the certificates should in all cases be made only by an officer who has personal knowledge of the facts which he certifies—in this case presumably Mr. Engineer Kains.

I am, sir, your obedient servant,

Deputy Minister, Interior Department. J. L. McDOUGALL, *A.G.*

COMMISSIONER'S OFFICE, DAWSON, Y.T., Oct. 5, 1900.

SIR,— I herewith return the papers referred to this office by the Auditor General, fixed as nearly in accord with his letter of instructions of August 3, 1900 (which was

accompanied by a letter from the secretary of your office, of August 4, 1900, file 398789), as circumstances will permit.

By way of explanation, I submit the following :—The engineer who was in charge of the work, Mr. Tom Kains, D.L.S., was several months ago stricken with paralysis, and lay in one of the hospitals here, unconscious for some time. Medical treatment and time so far restored him that he could be taken home to Victoria, B.C., where he has been since the last of July ; but it is doubtful if he could make the necessary certificates, as when he left here he was without the power of speech, and could not write ; further, it would appear that his mind was somewhat clouded.

His assistant, J. W. Astley, who personally attended to the details of most of the work, is in Dawson, and his certificates in the manner indicated are inclosed herewith. I also know personally of much of the work, having gone over it, and have also certified where I knew of it.

Referring to the Auditor General's letter, I beg to submit, re paragraph 4 : The three tenderers lower than D. A. Matheson referred to did not continue action by submitting satisfactory security for the completion of the work ; hence their tenders could not be accepted.

I might here state generally that as no deposit was then required with the tenders, many who had no thought of doing the work at all, just tendered 'for the fun of the thing,' so to speak. As a matter of fact, it was estimated that this portion of road would cost $2,200 per mile ; and I would accept nothing but the best of security on such low tenders. Mr. D. A. Matheson was considered sufficient security in himself to do any work he would tender for, not to speak of his having furnished good security as well. $1,650 per mile was a clerical error, as he proved to me conclusively, the real figures being $1,750. He was, however, held to the figures in the tender received at my office. He has completed the work ; I believe at considerable loss.

Re paragraph 5, the same explanation obtains. Bredsgard and Reinhart did not follow their tenders by the requisite action.

Re paragraph 6, the tender of H. H. Smith was for five miles on the main ridge road, from a point known as the Bear Creek divide, eastwards, and is in great part the same ground as is mentioned in the tenders of Wm. W. Irwin (No. 12).

The ground in question is for a short distance included in Fraser, Fawcett and Cameron's contract, at $1,750 per mile, and the rest of it in Paterson & Cleveland's contract of five miles and 1,400 feet, between Fraser, Fawcett and Cameron's and J. T. Sutton's contracts.

The five miles and 1,800 feet given to Paterson & Cleveland, at $2,350 per mile, was from a point on the main ridge road, known as Bear Creek divide, to Grand Forks, on Bonanza Creek (or from I to J on map), at the mouth of Eldorado. No tenders were asked for on this road. After the work on the main road had advanced to a certain stage, it was found that more work could be done than was at first deemed possible ; and this last-mentioned part was deemed very necessary. To have called for tenders for it would have involved a delay of ten or twelve days (a serious delay at that period of the year), during which time much of it could be done. A careful examination of the ground was made by Mr. Kains and his assistant, Mr. Astley, which showed that the work was at least as difficult as the first five miles awarded to Paterson & Cleveland, at $2,350, under tender. These gentlemen, after some discussion, agreed to take it at the last-mentioned rate per mile.

Re the 1,700 feet awarded to H. H. Smith, beginning at the Klondike river and extending eastward 1,700 feet, the same action was pursued as in the case of the distance from I to J, awarded to Paterson & Cleveland. As we were undecided for some time where to place the terminal point of the road at the Klondike river, the beginning of the first contract was placed at some distance from the bank of the river. After it was decided where the crossing would be made, the engineers and myself went over

the cost of that portion, and gave it to Mr. Smith at a rate decided on by ourselves as fair and just. When this short part of the road was completed, it was found that it would be necessary to remove a jam of logs and dirt on Bonanza creek which would endanger the safety of the road during freshets. An estimate was made of the cost of the work, and it was given to Mr. Paterson, at the cost determined on by the engineer and myself.

This explains to you how all the contracts were made, or the work given.

I may say that Mr. Matheson has quite recently completed his contract on Bonanza creek, which is shown on the map by the letters K to L, and payments have been made to him (over and above the accounts submitted last year), for the completion of that work. These will go forward at a later date.

The certificates which I send are made by Mr. Astley, C.E., as already intimated, who, as I have previously stated, was Mr. Kains' assistant in the work, and, in fact, overseer of the whole of it. Where I know personally of the facts set forth in the certificates, I have also certified to them, but only in cases where I am absolutely certain. I might have certified to every one of them, but declined to do so, for the reason that, in one or two instances, I did not see the road except during the winter time when it was covered with snow.

The matter was considerably delayed by the absence of Mr. Astley from town, to which he returned only a few days ago. As soon as he was available, everything was gone into and arranged, as you will see.

Hoping that these certificates and the map will suffice for a complete understanding of the whole question.

I am, sir, your obedient servant,

The Minister of the Interior. WILLIAM OGILVIE, *Commissioner.*

Re Telegraph Revenue Atlin-Bennett-Dawson Line.

AUDIT OFFICE, OTTAWA, March 17, 1900.

SIR,—In December last $6,085.85 came to account as the revenue from the Atlin-Bennett-Dawson telegraph line, being deposits made in August, September, October and up to November 18, 1899. Nothing has since been received, and I have to ask you to forward at once any further receipts you may have on hand.

I have also to inform you that your superintendent of telegraph lines has not furnished any returns from the operators on this line, covering the deposits that have come to account, though he has furnished the returns from the other government lines received by him to the end of February.

Your early attention is requested.

I am, sir, your obedient servant,

J. L. McDOUGALL, *A.G.*

The Deputy Minister, Public Works.

DEPT. OF PUBLIC WORKS, OTTAWA, April 20, 1900.

SIR,—Referring to your letter of the 17th ultimo on the subject of telegraph revenue—Atlin-Bennett-Dawson line, I am directed to state that our revenue statement for the month of March last contains the Dawson line returns to the end of October, and next month's statements will bring the subsequent returns to account.

I may add that there is a want of correspondence between the figures for remittances and the deposits made to cover them. Mr. Crean, the acting superintendent at Bennett, has been supplied with a detail copy of our entries and requested to adjust these differences.

I am, sir, your obedient servant,

JOS. R. ROY, *Acting Secretary.*

The Auditor General.

DEPT. OF PUBLIC WORKS, OTTAWA, April 14, 1900.

SIR,—Adverting to your letter dated 17th ultimo, *re* telegraph revenue, Atlin-Bennett-Dawson line, I have the honour to forward to you, herein inclosed, copy of a memorandum on the subject from our general superintendent of telegraph service, Mr. Keeley.

I am, sir, your obedient servant,

JOS. R. ROY, *Acting Secretary.*

The Auditor General.

(*Memorandum for the Minister of Public Works.*)

Having reference to the letter from the Auditor General herewith returned.

Our revenue statement for the month of March, now being compiled, will contain the Dawson line returns to end of October; and next month's statement will bring the subsequent returns to account. There is a want of correspondence between the figures for remittances and the deposits, &c., made to cover them; and I have sent to Mr. Creean, the acting superintendent at Bennett, a detailed copy of our entries for examination and to obtain an adjustment of the differences.

According to the returns that have reached us:

The total traffic receipts to end of December amounted to $20,083.74.

And the total deposits, transfers and certified bills for collection, amount to date to $20,270.97.

D. H. KEELEY, *Superintendent, Telegraph Service.*

AUDIT OFFICE, OTTAWA, April 30, 1900.

SIR,—I have received the March statement of telegraph revenue, in which there is entered the revenue accrued on the Bennett-Dawson line to October 31, amounting to $12,912.31.

On December 5 deposits came to account amounting to $6,085.85, and nothing since. In Mr. Keeley's memo. it is stated that the returns to December 31 will increase the revenue of the line to over $20,000. Evidently you must have a large number of deposit receipts in your department, and I have to ask you to send them forward at once.

The Customs, Inland Revenue and Post Office Departments forward the bank deposit receipts every day; the Interior Department every week, and the other departments monthly.

The first return received from your department appertaining to the present fiscal year was on December 5 last. Is there any reason why you cannot forward at the beginning of each month all the receipts that have come to hand during the preceding month?

I shall be much obliged if you give this matter early attention.

I am, sir, your obedient servant,

J. L. McDOUGALL, *A.G.*

The Deputy Minister, Public Works.

DEPT. OF PUBLIC WORKS, OTTAWA, May 7, 1900.

SIR,—I have the honour to acknowledge the receipt of your letter, dated 30th ultimo, calling attention to delay in forwarding receipts, &c., *re* telegraph revenue.

I am, sir, your obedient servant,

The Auditor General. JOS. R. ROY, *Acting Secretary.*

AUDIT OFFICE, OTTAWA, June 26, 1900.

SIR,—According to the returns received, the telegraph revenue of the Dawson-Bennett line to December 31 last was $20,283.74. Of this amount only $19,529.96 has come to account.

According to a statement made in the House of Commons by the acting Minister, the revenue for November was $5,014; for December, $3,788. According to the returns that have reached this office the revenue for November was $3,990.16; for December, $3,181.27.

The acting Minister, in his statement in the House, gave the revenue for January as $6,752; for February, $5,366; for March, $7,878; for April, $7,345. No part of these amounts has come to account, and I have to ask for an explanation of the delay, and that prompt action be taken to secure payment.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. L. McDOUGALL, *A.G.*

DEPT. OF PUBLIC WORKS, OTTAWA, June 30, 1900.

SIR,—I have the honour to acknowledge the receipt of your letter, dated 26th instant, asking for certain explanation respecting the telegraph revenue of the Dawson-Bennett line.

I am, sir, your obedient servant,

The Auditor General. JOS. R. ROY, *Acting Secretary.*

AUDIT OFFICE, OTTAWA, August 18, 1900.

SIR,—Apart from a letter of acknowledgment, I have had no reply to my letter of June 26 in reference to the non-receipt of any revenue from the Dawson-Bennett telegraph line for a later date than December last.

I do not find that any revenue has since come to account.

Your early attention is requested. You have no doubt been notified by the Finance Department that the accounts of the fiscal year ended June 30 last will be closed on August 31.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. L. McDOUGALL, *A.G.*

AUDIT OFFICE, OTTAWA, September 14, 1900.

SIR,—I wrote you June 26 last, calling your attention to the delay in bringing the revenue from the Bennett-Dawson telegraph to account.

The return for June and July has been received, and according to it there is unaccounted for $14,281.19, together with the revenue accrued since February last.

I now learn that you are paying the cost of repairs from revenue.

The applications for transfers should have been made long ago. I shall pass them if they are made at once, but they may be refused in the Finance Department.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. L. McDOUGALL, *A.G.*

AUDIT OFFICE, OTTAWA, October 25, 1900.

SIR,—According to the statements furnished to this office, the total revenue of the Bennett-Dawson telegraph line from June, 1899, to March, 1900, both inclusive, was $37,758.53, of which $30,149.24 had come to account when the books of 1899-1900 were closed September 15.

Two bank receipts, dated May 15 and 18 for $4,799.43 and $1,357.82 respectively came to account September 29. Why were these receipts not forwarded to the Receiver General more promptly?

I have already called your attention several times to the unsatisfactory condition of this account, and I regret that no improvement has been effected.

According to a statement made by the acting Minister of Public Works in the House last session, the receipts in April are $7,345. Of this account only $2,115.60 has yet come to account, and the returns have not been received. In addition to the balance of April receipts not accounted for there are also the receipts of the five months that have since elapsed.

If the deposit receipts are in your department please have them forwarded to me at once.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. L. McDOUGALL, *A.G.*

Re Telegraph Rev. Sundry Lines in Arrears.

AUDIT OFFICE, OTTAWA, October 26, 1900.

SIR,—Returns and deposits are not coming from the following telegraph lines as promptly as they should :--

Escuminac,
North Shore (W. B.)
North-west lines,
Pelee Island,
North Shore (W.B.)
Godbout,
Natashquan,
Piastre Bay,
Quarantine.

Your attention is requested.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. L. McDOUGALL, *A.G.*

Re Slide and Booms Dues, Newcastle District.

AUDIT OFFICE, OTTAWA, October 26, 1900.

SIR,—Referring to previous correspondence in connection with the non-collection of the slide and boom dues on the Newcastle district works, I have again to remind you that, including the season of 1900 no revenue has come to account from these works for the last seven years. The expenditure during the same time has been $13,930.61 for staff and $15,655.23 for repairs.

Though I have asked for a statement of the arrears due for tolls at these works it has not been furnished. Would you now favour me with such a statement, and let me know what action the department is taking to collect what is due.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. L. McDOUGALL, *A.G.*

Re Arrears Due.

AUDIT OFFICE, OTTAWA, November 12, 1900.

SIR,—In your letter of October 31, it is stated that you enclose statements of slide and boom dues uncollected on September 30, 1900 (Ottawa, St. Maurice and Newcastle District).

I have to inform you that the statement in reference to the Newcastle District only shows the arrears due of the tolls of 1893. No statement has been furnished of the tolls accrued during the last seven years, none of which have been collected.

My letter of September 6 requested all arrears due to your department (1) by collecting officers ; (2) by disbursing officers ; (3) by other persons whether Government officers or not.

If there are any arrears due, other than those on account of slide and booms, I shall be glad to have a statement at your earliest convenience. If there are none, please inform me of the fact.

I am, sir, your obedient servant,

The Deputy Minister, Public Works. J. L. McDOUGALL, *A.G.*
